Astonishing in breadth and depth, the content in this formidable file, as well as the research material included in every one of the scholarly editions available, is superb throughout.

... This title should be owned by every research library serving serious scholars in the humanities.

—Cheryl LaGuardia

Library Journal,

An invaluable tool, which not only saves time, but makes possible research of a thoroughness not previously possible.

—Roger Crisp, Editor of *Utilitas*

St. Anne's College, Oxford University

In the world of scholarly electronic publishing, InteLex continues to get it right, as they have from the beginning.... I recommend InteLex databases to libraries wholeheartedly, not only because they are superior publications and a good deal, but also because InteLex is the kind of electronic publisher that academic libraries need most in the 21st century.

Les 15 vol. sont complétés en 1789 par 2 vol. supplémentaires, contenant la seconde partie des Confessions.

THE COMPLETE WORKS OF JEAN JACQUES ROUSSEAU

ISBN: 978-1-57085-304-3

Language: English translation

In Geneva: [1780]-1782 & 1789. Complete in 17 vols. Famous edition published by the Société typographique de Genève, containing the first part of the Confessions in the original edition. The text was established by Pierre Moulton and Du Peyrou. Edition printed simultaneously in three formats, the in-4 edition being the most prestigious. The 15 vols. were completed in 1789 by 2 additional vols. containing the second part of the Confessions.

The French was originally digitized by the library at the University of Geneva. Every page of the searchable text is linked to the image of the page in the original 18th century edition.

In addition, on an experimental basis, we have created a Google AI translation into English of all 17 volumes. Each page of the English translation is linked to the French of Rousseau (and vice-versa). While the English translation is not perfect, it can be used as a basis for searches, and the translation demonstrates how far AI translation has evolved.
